

March 21, 2016

Hello everyone: Not the greatest weekend with cold temperatures, windy, cloudy skies and on and off rain. At least, Friday afternoon was a good flying day and some of us made it to the field. So, not much to report from the RAMS Field.

Quick Reminders:

RAMS APRIL MEETING: Back to the RAMS Field at 3:00PM. Sunday April 3, 2016.

RAMS BUILD EVENT "THE PIC A NIC": Saturday, April 23 starting at 1:00PM. Any aircraft from a balloon, multicopter, helicopter, fixed wing or even a trash bag filled with helium can enter.

RDRRC ELECTRIC FUNFLY: Saturday, April 16. An all day event at our fellow RC Club. There will also be night flying. If it is electric, it can be flown. Spectators free. Let's join our friends from RDRRC.

THE ANNUAL RAMS FUNFLY INVITATIONAL: Saturday, June 4, 2016. We will invite our fellow pilots from the PILOT Club to join us to fly and have a nice lunch.

RAMS GLIDER COMPETITION: Coming soon.

JOE NALL WEEK: May 7 to the 14. This is the RC FUN FLY Event of the year. JT and I go every year. Look for the RAMS trailer at the Electric Flying field and come to say hello. See you there.

RAMS 2017 OLYMPFREAKS: We need to start thinking about it. This is the signature competition event at RAMS. There will be more information coming as we get into summer time and decide on a date.

That is all! See you at the field and have safe fun flying!!!

Dr. Joey
RAMS Secretary
