

September 1, 2016

Hello everyone: YES! Looking forward to the Labor Day Weekend. After Saturday, looks like we will have some nice weather for flying with less hot temperatures. Let's see what the weatherman is guessing this time around for the extended weekend weather forecast. Friday: 73 degrees, 80 to 100% chance of rain, 8-15 mph winds. Saturday: 71 degrees, 18 mph winds, 100% chance of rain throughout the day clearing in the evening. Sunday: Mostly sunny, 79 degrees, 7 mph winds decreasing into the evening, Monday: Sunny, 85 degrees, light winds NW. See you at the field.

Reminders:

RAMS SEPTEMBER CLUB MEETING: This Sunday, September 4 at 3:00PM at the **RAMS Field**. Topics of discussion are the Olympfreaks Event, RAMS Swap Meet and the RAMS Hats update.

FLY FOR TOTS: The RDRC Charity FunFly Event. **Sept 9 to 11, 2016**. Let's give our fellow RC Club (RDRC) a hand and attend the event. Our money spent there will go to a good cause.

RAMS 2017 OLYMPFREAKS: SUNDAY, OCTOBER 9, 2016: The event will start at **2:00PM**. This is the signature competition event at RAMS. **SO PLAN ON JOINING US TO PARTICIPATE OR BE A SPECTATOR**. We need you there!

RAMS SWAP MEET: SUNDAY OCTOBER 9, 2016. Setup starts at 3:00PM. As we did last year, gather all the stuff you don't want anymore that is RC hobby related, tools, batteries, airplanes, propellers, tool boxes and so on. Bring them to the RAMS Field and sell it for a price you agree with the buyer. The money you collect, will then be given to Larry McMullen, Club Treasurer for our Club Funds. It is an easy way to do something extra for your club and it was a fun time last year. Some pilots got pretty good deals, so plan on coming and bring something.

RAMS HATS: We have started the process of logo and artwork and checking cost. I have seen potential options and is looking really nice. We will then decide what best suits our club. When I know more about it, I will pass along the information. For the September 4th club meeting we might have some updates about it.

E-WEEK AT TRIPLE TREE: This is also known as the Electric JOE NALL at Woodruff South Carolina. **September 28 to October 2, 2016**. Registration is open. This is a really fun FUNFLY with everything electric that flies. From really big airplanes to the tiny stuff. All Electric! See you there!!

That is all. Have a great LABOR DAY WEEKEND. If you are traveling please be safe.

See you at the field and have safe fun flying!!!
